Summary of Work

The Immigrant's Assistance Center has been an active participant in the Portuguese American Citizenship Project since 2001.

For the September and November, 2012 elections, postcards were sent out to each parish household where at least one household member was registered to vote. No cards were sent out for the March, 2012 election.

Results

Immigrant's Assistance's voter overall turnout for the September and November 2012 elections was higher than citywide turnout. The Immigrant's Assistance turnout for the September Primary Elections was 19.6%, as compared to the city turnout of 14.8%. The Immigrant's Assistance turnout for the November General Elections was 74.7%, which was significantly higher than the citywide turnout of 58.8%.

As noted above, no reminder cards were sent out for the March 2012 local election. The Immigrant's Assistance voter turnout in March was 5.1%, which was lower than the citywide turnout of 8.5%.

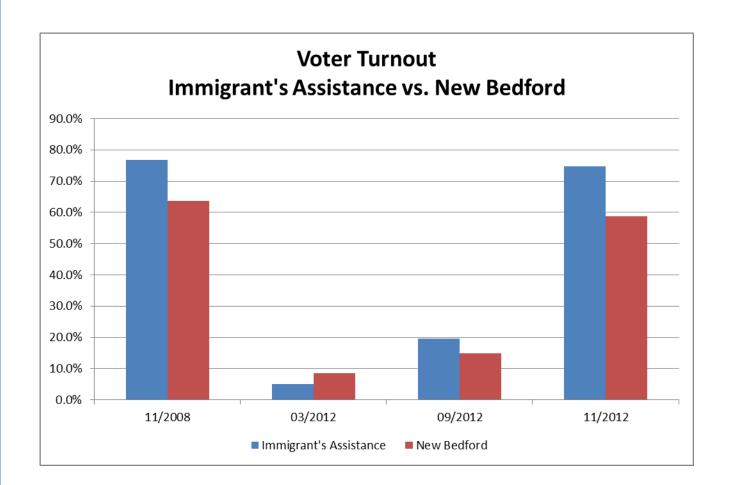

Voter turnout is not uniform across age groups. Younger voters tended to vote less in March and September, but had a high turnout for the November presidential election. Turnout for Immigrant's Assistance voters was significantly higher than citywide turnout for the November election across all age groups.

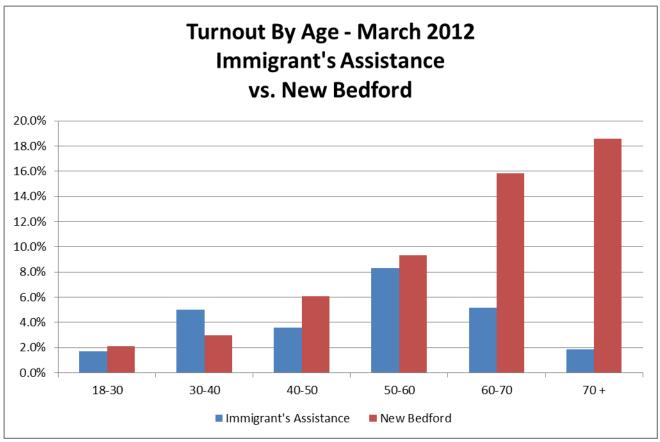

^{*} No reminder postcards were sent out for the March, 2012 election.

Most registered voters fall between the ages of 50 and 70. There are more women registered to vote in the 18-30, 50-60 and 70+ age groups, while more men are registered to vote in the 30-40, 40-50 and 60-70 age groups. Turnout for women, however was higher in all age groups except with the 70+ group for the November election.

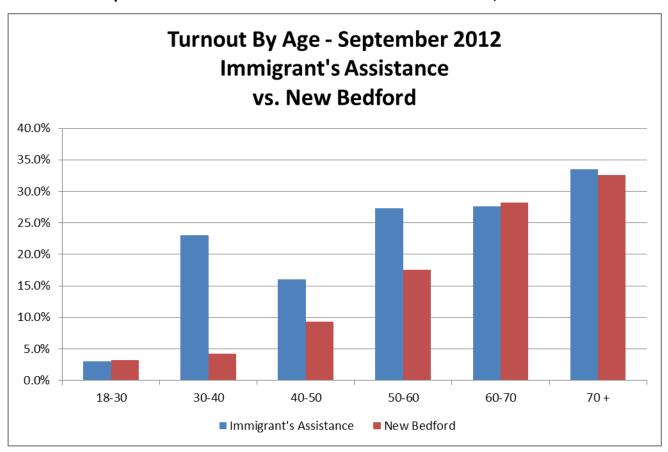

The following graphs summarize voter turnout by age, gender and political party affiliation.
